DO NOT PURCHASE A CALCULATOR

With the adoption of the new Everyday Mathematics program every child from third to grade fifth grade is required to have a specific type of calculator that performs various functions. In order to ensure that each child has a calculator that performs the necessary functions and is developmentally appropriate, ISP has ordered calculators for each child. The cost of the calculator for students in third to fifth grade is \$35.00. Your child's name will be written on the calculator and it will be your child's responsibility and it will be your child's to keep. You will be billed by the school for the cost of this calculator.

- **ISP celebrates its diversity therefore we encourage all children to have a national costume and/or flag available for special events!**

ALL items sent to school must be labeled with your child's name & class (e.g. Sally – 3rd. Grade)

Best Regards - Third Grade Team
